

How to spend our break

I'd like to explain about how we spend our break time.

We have 10 minute break between each classes. We have to move classes quickly according to subject. We have 20 minute lunch time and 20 minute lunch break.

I'd like to describe some popular way of spending time.

Tag

Tag is popular for boys and girls. They enjoy running around everywhere in school area. A similar fun game is ketta. In the game before the oni(tagger) will chase the other players and catch them, the other players kick the can. They often play ketta when they can't play outside

Playing card

We enjoy playing card games with our friends.

The old maid and "daifugo" are especially popular.

Soccer

Playing soccer is popular among the boys. They enjoy playing it in the play ground.

Reading books

Students like to read a variety of books. We have a school library and borrow some books. The most popular books are the books written by "Yusuke Yamada". We also like to read Japanese comics, manga. But our school has prohibited bringing manga to school

Club activities

We have club activities. Some students who join softball club and volleyball club practice hard not only after school, but also in the morning and lunch break.

Chat

Every student really likes chatting. They talk about studying, club activities, love and so on.
